SYST 371
SYSTEMS ENGINEERING MANAGEMENT

Prof. Paulo C. G. Costa, PhD
Department of Systems Engineering and Operations Research
George Mason University
http://mason.gmu.edu/~pcosta

Teacher Assistant: Mr. Gabriel Lewis

Course Description
Spring 2013

This course is intended to provide systems engineers with management and project control skills required to formulate and manage large, complex projects. The initial part of the semester will be devoted to the development and demonstration of individual ability to use engineering management tools, as well as to exercise control on the trade off performance, cost, and scheduling of a project. The second part of the course turns the focus to prepare system engineers to face team competition in an engineering project proposal. In this phase, team leaders will be chosen based upon individual performance on the midterm exam and homework, and will then select their teammates. All teams will be given a common engineering management problem and will bid for the contract at the end of the semester. I will act as the procurement executive of a large company that has published the request for proposal (RFP) and will assign grades based upon the merits of each team submission.

Class Details

Prerequisites: SYST 210 – Systems Design
Co-requisites: SYST 330 – System Methods

Classes
* Room 276 of the Enterprise Hall.
* Mondays, from 4:30 p.m. to 7:10 p.m.

Office hours
* Room 2227 of the Engineering Building.
* Thursdays, from 2:00 p.m. to 4:00 p.m., or by appointment.
* Dr. Costa contact data: (703) 993-9989 / pcosta@gmu.edu
* TA contact data: glewis7@masonlive.gmu.edu
Administrative

* Registration and drop without tuition penalty deadline: Jan 29th.
* Drop with 33% tuition penalty: Feb 12th.
* Final Drop deadline (66% tuition penalty): Feb 22nd.

Course Logistics

1. All course communication will be done via the Blackboard system. Students are expected to have access and be able to use the system before classes start. Blackboard is accessible via the MyMason portal at https://mymasonportal.gmu.edu/. Instructions for using the Blackboard system are provided in the “resources” link at the bottom of the portal page.

2. Volgenau School Computing Resources has answers to many questions about school systems on their web site: http://labs.vse.gmu.edu and will try to help you if have problems connecting to school computing systems. However, they will not provide assistance with general computing questions or course assignments. Please contact me if you have any questions about how to use software to complete your assignments.

3. Accommodations for disability: If you have a documented learning disability or other condition that may affect your academic performance you should: a) make sure this documentation is on file with Office for Disability Services (SUB I, Rm. 4205; 993-2474; http://ods.gmu.edu) to determine the accommodations you need; and b) let me know about your accommodation needs as soon as possible. If you have contacted the Center for Disability Services and are waiting to hear from a counselor, please keep me updated during the whole process.

4. Inclement weather: Class sessions may be cancelled due to inclement weather or other University emergencies. Check the Announcements area of the course website for updates.

Expected Behavior

1. Attendance in class is essential. Information will be presented that will not necessarily be in the book, and is almost certain to be in both the midterm and final exams.

2. You are allowed to enter or leave at any time, provided you do your best to avoid disrupting the activity going on.

3. Please make sure you have your cell phone, tablet, pager, etc., in silent mode. Should you find yourself in extreme need to answer an incoming call, just leave the room to do so.

4. With a few exceptions, almost all of the course deliverables are submitted electronically (e.g. class-work and homework), scheduled in advance, and with some flexibility for students to change. Should any scheduled event impact a student’s participation in class activities and assignments, it is the student's responsibility to coordinate with me in advance.

5. Students are permitted to interact on homework assignments, but your write-up must be your own. Assignments are intended to provide practical, hands-on experience with the ideas presented in the course.
6. Late assignments, when properly justified, will receive reduced credit in accordance with the late assignment policy (below in this document). No points will be awarded if homework is turned in after solutions have been posted.

7. The exam dates and scheduling provided below are tentative, and it is the students’ responsibility to keep abreast of changes.

8. Make-up exams will only be given for extreme situations, and only if I am contacted before the exam is given and full arrangements are established. Full adherence to this policy is the responsibility of the student.

9. Religious observances are one common example of events that might impact students’ activities. Students are responsible for planning ahead. Please, refer to the GMU’s calendar of religious holidays at http://ulife.gmu.edu/religious_calendar.php.

10. Academic Policy: All academic policies as given in the Honor System and code will be strictly followed. These are available at http://catalog.gmu.edu/content.php?catoid=19&navoid=4113.

11. General Policies: All general policies defined in the University Catalog are in place for this course. You can access those at http://catalog.gmu.edu/content.php?catoid=19&navoid=4114.

12. George Mason University is an Honor Code university. Please see the Office of Academic Integrity website (http://academicintegrity.gmu.edu/honorcode/) for a full description of the honor code and the honor committee process.

---

Exercise planning, be proactive and do your best to stay ahead of schedule.

<tr>
<td>7</td>
<td>3/11</td>
<td>No classes on 3/11</td>
</tr>
<tr>
<td>7</td>
<td>3/18</td>
<td>Resource allocation and control. Chapter 6</td>
</tr>
</tbody>
</table>
Week 8 3/25 Monitoring and controlling. Chapter 7. MIDTERM handed
Week 9 4/1 Evaluating and terminating the project. MIDTERM review
Week 10 4/8 Team assignments and briefing.
Week 11 4/15 Team work, project status briefings
Week 12 4/22 Team Work, project status briefings
Week 13 4/29 Team Presentations
Week 14 5/6 Team Presentations
Week 15 5/13 Final Exam

Textbook

Project Management in Practice
Samuel J. Mantel Jr., Jack R. Meredith, Scott M. Shafer, Margaret M. Sutton.

Grading

The grading structure of this course is as follows:

- Assignments (15% of grade)
- Midterm (25% of grade)
- Final Exam (25% of grade)
- Team Proposal (25% of grade)
- Timesheets and Team Self-Evaluation (10% of grade)

Assignments

There will be assignments posted via Blackboard during the course. Each assignment will have its respective due date defined during the announcement. I might sometimes not grade the assignments in detail, but will always use it to gain insight on how well students are understanding the subject.

You are not prevented to work with your peers on the class work exercises, and are even encouraged to do so. However, each student must provide his/her own answers, and I might
verify whether he/she actually worked in his/her respective exercise and understood the solution provided. In any case, past experience consistently shows that students who didn’t keep up with the assignments have had a hard time with the exams.

Assignments must be submitted via Blackboard and can be of three types:

**Homework Assignment:** Each homework assignment is out of 10 points. Unless stated otherwise, I will present the solutions at the beginning of the next class after the assignment was handed. If you handle your assignment after it is due but before I present the solutions you can earn a max of 7 points. An assignment handled after the solutions are posted will yield 0 points.

**Tests, Quizzes, or Challenges:** These are conducted in class and each will be out for an amount of points to be disclosed prior to the class. The details of each test, quiz, or challenge will be explained during its respective announcement.

Files should be named with the following convention:

*Syst371_AssignmentTypeAndWeek_LastnameFirstname.*

Examples: Syst371_Hwk2_DoeJohn, Syst371_ClassWork2_PoppinsMary, etc.

Always check for grades on Blackboard. If you don’t see the grade, report to me by the next class after assignments have been returned. I will not entertain missing grade requests that come later in the semester.

**Exams**

The Midterm will be a take-home exam. The Final will be an in-class exam.

Midterm: 3/28, take home exam

Final: 5/13, 4:30 pm – 7:15pm, Enterprise Hall room 276

**Project, Timesheets, and Team Self-Evaluation**

Detailed instructions for these activities will be provide later in the course.

---

**BEST WISHES FOR A GREAT SEMESTER!!!**
